VÕ DUY LINH

Software Technology — Information Technology

About me

I am passionate about technology and willing to learn and develop myself in a professional work environment. I have strong skills in using HTML, CSS, ReactJS, and NextJS, along with knowledge of databases. I also have experience working with popular frameworks and libraries such as Bootstrap and jQuery. Additionally, I am always eager to continue learning and staying updated with the latest technologies to enhance my skills and knowledge. I believe that my enthusiasm, teamwork, and problem-solving abilities will positively contribute to the success of any project.

Skills

- HTML — 90%
- CSS — 80%
- JavaScript — 70%
- ReactJS — 75%
- NextJS — 75%
- Bootstrap — 90%
- jQuery — 90%
- SQL — 100%

Education

- *Engineering degree -* **Sai Gon University** *- 2020 - 2025*

Projects

Bag Store

- *Developed a website for a bag store specializing in selling various types of bags, including backpacks, handbags, and travel bags.*

- *Implemented an intuitive user interface with HTML/CSS and enhanced user experience with JavaScript functionalities.*

- *Utilized ReactJS to create dynamic and responsive components for seamless navigation and browsing.*

- *Integrated Node.js for server-side scripting to handle back-end functionalities such as user authentication, product management, and order processing.*

- *Employed MongoDB as the database management system to store product information, user profiles, and order details securely.*

- *Implemented version control with Git to manage project collaboration and code deployment efficiently.*

Experience

Front-end Developer: 2020 - 2024: Saigon University

- Constantly exploring and learning new technologies to enhance my skills and knowledge. Skilled in creating visually appealing and harmonious websites.

Student: 2020 - 2025: Saigon University

- Possess self-learning skills, focus, patience, and a strong sense of discipline. Consistently achieving good academic results and excelling in completing tasks.
